---

**The multi-disciplinary team**, most of whom can speak English, consists of a gynaecologist-obstetrician, an anaesthetist intensivist and a pediatric neo-natologist who are on call 24h/24.

If you wish, and there are no medical or other objections, you may like to donate your umbilical cord blood during your delivery.

The gynaecological and obstetric emergency unit at 3 rue Barbès is open 24h/24.

The IHFB offers other sessions on various and interesting subjects for expectant mothers, such as sophrology, haptonomy (a holistic approach to pregnancy and childbirth), pain control, yoga and shiatsu and group sessions for the future fathers.

Volunteers are present every Thursday from 09h00 to 12h00 to help, and translate for, English speaking patients.

The gynaecological and obstetric emergency unit at 3 rue Barbès is open 24h/24.

The IHFB offers other sessions on various and interesting subjects for expectant mothers, such as sophrology, haptonomy (a holistic approach to pregnancy and childbirth), pain control, yoga and shiatsu and group sessions for the future fathers.

Volunteers are present every Thursday from 09h00 to 12h00 to help, and translate for, English speaking patients.
You are expecting a baby and our friendly Maternity service is delighted to welcome you with our English speaking team of Doctors and Midwives.

The team is ready to welcome you from the start and will make your stay as pleasant as possible.

GYNAECOLOGICAL AND OBSTETRIC SERVICES

The unit has a special area for Consultations and the Hospital proper for difficult pregnancies and after-delivery care.

After giving birth, you will stay in one of our comfortable 33 rooms (29 of which are singles). These rooms have been recently done up.

We also have 14 beds for gynaecological surgery patients and for mothers with medically complicated pregnancies.

Technical
For your delivery we have every modern facility:

- 1 Emergency room
- 3 pre-labour wards
- 6 labour wards
- 3 Operating theatres
- 1 Recovery room with 4 beds

The Type II A neo-natal unit has 12 cots and 5 mother-and-baby rooms.

Pre and post birth consultations with midwives and gynaecological obstetricians
Our team (most of whom speak English) is available for information on:

- Gynaecological surgery
- Anaesthetics
- Obstetrical Ultrasound
- Ante-natal diagnosis
- Treatment of gestational diabetes
- Breast-feeding counselling (before and after birth)
- Psychologist
- Infertility

British Doctor and Gynaecologist:
Dr Gunita Jolly can provide antenatal care during your pregnancy.
Dr Gunita Jolly consults on Thursday mornings
Tel: 01 46 39 22 36
gunita.jolly@ihfb.org

Meetings and conferences to prepare for birth in different ways
Sessions on various themes to prepare for birth and parenting are given by relevant staff members such as midwives, nursery nurses and their assistants or by an anaesthetist.

We do not forget the daddies and various groups and meetings are organised for them too.

The IHFB offers other sessions on various and interesting subjects for expectant mothers, such as sophrology, haptonomy (a holistic approach to pregnancy and childbirth), pain control, yoga and shiatsu.

British mid-wives: Irma and Gaelle are available for advice.

SOME SELF-EXPLANATORY ANNUAL FIGURES

2 500 births
800 surgical operations
12 500 Obstetrical and gynaecological consultations

The Maternity Unit is part of the Nord 92 perinatal network that works in liaison with the Louis Mourier Hospital when neo-natal reanimation is necessary (Maternity type II), with the Beaujon Hospital for cases of difficult maternal pathologies and embolisation, and with the multi-disciplinary Centre at Leonard de Vinci for ante-natal diagnosis.
